**TMSpro**

**Single User Demo**

**Installation Instructions**

The *TMSpro™* Demo installation routine has two options:

1. For users with Microsoft Access 2000 or newer already installed on their PC use the TMSproDEMO.zip .
2. For users without Microsoft Access installed or with a version older than 2003, the second option includes the installation of a licensed version of runtime Microsoft Access 2003. In this case, on the users' PC install TMSproDEMOrt.zip for the demo version.

The *TMSpro™* icon will appear in your list of programs (Start – All Programs) as “*TMSpro™*”. The installation program also adds this icon to your desktop as a convenience to you.

It is strongly recommended that users who are unfamiliar with the use of Microsoft Access refer to **TMSpro Manual** for a clearer understanding of the navigation bar at the bottom left of the data entry screens.
